Faster Results

A quick guide for preparation centres

All you need to know about results

Faster Results for Cambridge English exams

- Most results for Cambridge English exams will now be available as quickly as four weeks after the exam day.
- Don't worry if you have not received all your results after four weeks – any remaining results will be issued in the two weeks following the initial release date.
- In the unlikely case that you have not received any of your students' results after four weeks, you don't need to be concerned. We will release all the results as soon as possible within the two week window.
- All results will be available six weeks after the exam day (apart from in exceptional circumstances).

Email notification through Cambridge ESOL Online for preparation centres

- Please ask your local authorised exam centre to enter your students under your preparation centre's name when making entries for an exam.
- You will receive an email notifying you when your students' results start being released.
- Your students' results will then be available for you to check on Cambridge ESOL Online for preparation centres – ask your centre to give you access (**https://preparationcentre.cambridgeesolonline.org/**).
- The website will be automatically updated until all of your students' results have been released.

What you should tell your students

Faster results for your students

- The majority of your students will get their results four weeks after the exam day, with any remaining results being released during the following two weeks.
- If your students are worried that they have not received their results after four weeks, please assure them that their results will be released as soon as possible.

Email notification through Results Online website

- Your students should sign up to the Results Online website to be notified when their result is available (**https://CambridgeESOL-Results.org**).
- They can sign up at any time after the exam using their confidential candidate ID from their Confirmation of Entry.

Students' certificates

- Certificates will still be issued on a fixed day, approximately two weeks after the results release window closes – ask your local exam centre for details.

If you or your students have any further questions about Faster Results, please contact your local authorised exam centre.
